ALUKLER
PERFILES DE ALUMINIO

De líderes en el procesamiento del vidrio hoy ya somos innovadores en el rubro de la construcción. Con cuatro décadas de Vidriocar en el mercado nacional y su ilustre presencia en las ciudades más importantes del país, ponemos a su alcance productos originales y de gran calidad. Para todas sus ideas y proyectos tenemos una propuesta que ofrecerle con la asistencia de profesionales expertos que trabajan exclusivamente para brindarle un servicio de primer nivel.

UNA EXPERIENCIA QUE LE INVITAMOS A DESCUBRIR.

Los proyectos de arquitectura pueden diferenciarse unos de otros con la amplia gama de posibilidades que Alukler ofrece al mercado. Pioneros en la industria de perfiles de aluminio en Paraguay, con una gran variedad de sistemas constructivos, contamos con múltiples y diversificadas líneas de perfiles para cada tipología de cerramiento y edificación. Otorgamos la posibilidad de obtener materiales de distinguidas y refinadas terminaciones y colores. Dotado de un equipo experimentado y capacitado para orientar, dar soporte técnico y abordar a todas las exigencias de diseños estructurales antes y durante su ejecución.

CALIDAD PARAGUAYA CON TECNOLOGÍA 100 % EUROPEA.

The background of the entire page is an abstract architectural wireframe. It consists of numerous thin, light blue and grey lines that form a complex, three-dimensional grid of rectangular and triangular shapes. These lines overlap and intersect to create a sense of depth and perspective, resembling a skeletal structure of a modern building or a complex geometric design. The overall tone is light and airy, with a white background at the top where the text is located.

Technical drawing of a window assembly showing two views: a top view and a side view. The top view shows a window frame with a double-pane unit. The side view shows the frame profile. Dimensions are given in millimeters. Key dimensions include:

- Total height: H
- Height from top edge to top of frame: $H-Eje-110$
- Height from top of frame to top of pane: $H-Eje-92$
- Height from top of pane to middle of frame: 19
- Height from middle of frame to bottom of pane: 20
- Height from bottom of pane to bottom of frame: $Eje-139$
- Height from bottom of frame to bottom edge: $Eje-121$
- Height from bottom edge to bottom of frame: 10
- Height from bottom of frame to bottom of pane: 101
- Height from bottom of pane to middle of frame: 91
- Height from middle of frame to top of pane: 100
- Height from top of pane to top of frame: 10

Labels for the window units are SU-102, SU-227, and SU-225.
